Coastal Waters Forecast for South Australia Southern Zones

Issued at 9:30 pm CDT on Saturday 7 November 2026
for the period until midnight CDT Tuesday 10 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred well south of SA will continue to drift eastwards over the weekend, while a developing low pressure system and trough in WA move close to the SA border. The high drifts southeast of Tasmania by Monday as the low moves across western SA on Monday and northern SA on Tuesday before clearing to the east later. Another high develops south of the bight on Wednesday.
