Coastal Waters Forecast for South Australia Central Coast

Issued at 9:30 am CST on Saturday 22 August 2026
for the period until midnight CST Monday 24 August 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system over the Bight slowly drifts over SA today, to be centred over the eastern states by Sunday. A weak front embedded in the southwesterly flow around the high, clips the southeast early Saturday morning. A low pressure system and associated trough move into the far west later Sunday and then moves across the state on Monday and out over the eastern states by later Tuesday. Another ridge of high pressure moves into the west later Tuesday.

Forecast for Saturday 22 August until midnight

Winds: West to southwesterly below 10 knots becoming northerly in the late evening. Seas: Below 1 metre. Swell: Southwesterly 3 metres. Weather: Partly cloudy.

Forecast for Sunday 23 August

Winds: Northerly 10 to 15 knots turning northeasterly below 10 knots in the afternoon. Seas: Below 1 metre. Swell: Southwesterly 2.5 to 3 metres. Weather: Partly cloudy.

Forecast for Monday 24 August

Winds: North to northeasterly 10 to 15 knots shifting southeasterly during the afternoon. Seas: Below 1 metre. Swell: Southwesterly 2 to 2.5 metres. Weather: Cloudy. 90% chance of showers.

The next routine forecast will be issued at 3:30 pm CST Saturday.

* Calls to 1300 numbers cost around 27.5c incl. GST, higher from mobiles or public phones. Marine forecasts are also available on VHF and HF radio. View the radio schedule on www.bom.gov.au/marine
