Updated North West Pastoral District Forecast

Issued at 10:39 am CDT on Monday 19 October 2026
for the period until midnight CDT Thursday 22 October 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A slow-moving high pressure system over the Tasman Sea extends a ridge over eastern SA. A trough of low pressure over western SA is moving eastwards and will reach southeastern parts later today while a weakening cold front crosses the Bight. The trough lingers in the east through the middle of the week as a weak high pressure system forms in the Bight. This trough weakens on Thursday as a second trough moves into the west from WA.

Forecast for the rest of Monday 19 October

Mostly sunny. Slight chance of a shower south of Woomera, becoming less likely in the afternoon. Near zero chance of rain elsewhere. The chance of a thunderstorm, possibly severe with damaging winds in the afternoon and evening. Winds northwest to northeasterly 25 to 35 km/h tending southeast to southwesterly in the early afternoon. Daytime maximum temperatures 31 to 37.

Coober Pedy	Possible storm.	Max 36
Marla	Possible storm.	Max 37
Oak Valley	Sunny.	Max 31
Pukatja/Ernabella	Possible storm.	Max 36
