Coastal Waters Forecast for South Australia Western Zones

Issued at 9:30 am CST on Monday 28 September 2026
for the period until midnight CST Wednesday 30 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A trough over central Australia will weaken and contract into WA as a ridge of high pressure extends across southeastern SA. The high pressure system is expected to drift into the Tasman Sea by Tuesday as the trough in WA begins to re-extend over western SA on Tuesday, pushing into the state on Wednesday and reaching the far northeast on Thursday.

Far West Coast: WA-SA Border to Fowlers Bay

Forecast for Monday 28 September until midnight

Winds: North to northwesterly 15 to 20 knots tending northwest to southwesterly 10 to 15 knots in the middle of the day then tending northeast to southeasterly in the early afternoon.
