Fire Weather Warning
for the West Coast fire weather district

Issued at 3:58 am CDT on Monday 9 November 2026.

The Country Fire Service advises you to:

- Action your Bushfire Survival Plan now.
- Monitor the fire and weather situation through your local radio station, www.cfs.sa.gov.au, and www.bom.gov.au.
- Call 000 (Triple Zero) in an emergency.

For the rest of Monday 9 November:

Extreme Fire Danger is forecast for the following fire weather district:
West Coast

Weather Situation

Fresh north to northeast winds combined with hot and dry conditions Monday are expected to result in extreme fire danger over parts of the West Coast district from the late morning. A fresh and gusty cool southwesterly change is expected over the far west during the morning and moving through eastern parts of the West Coast district during the afternoon. Showers and thunderstorms are possible from the morning ahead of the change.

For information on preparing for bushfires go to www.cfs.sa.gov.au.

No further warnings will be issued for this event, but the situation will continue to be monitored and further warnings issued if necessary.
