Weather Situation

A ridge of high pressure lies over SA while a near stationary trough lies near there the WA border. The trough will weaken early next week while a cold front moves across the Southern Ocean and over southeast Australia on Tuesday. A high pressure system quickly moves into the Bight mid next week, maintaining the ridge over SA.

Forecast for the rest of Saturday 3 October

Isolated showers and thunderstorms in the far west. Dry elsewhere. South to southeasterly winds, fresh about the southeast coast.

Forecast for Sunday 4 October

Showers and isolated thunderstorms over the far west, extending into central parts during the day. Maximum temperatures below average, tending well below average in the north. Southeast to northeasterly winds.

Forecast for Monday 5 October

Possible morning fog in the far west. Mostly dry, though a slight chance of an isolated shower or thunderstorm over the far north. Maximum temperatures below average. Light winds, tending northwesterly in the south during the day.

Forecast for Tuesday 6 October

Showers about the southern agricultural area, clearing during the day. Maximum temperatures below average. Northwesterly winds in the south, tending south to southwesterly during the day. South to southeasterly winds in the north.

Forecast for Wednesday 7 October

Dry. Maximum temperatures below average in the east, gradient to above average in the west. Southeast to northeasterly winds.

Cumulative rainfall totals to the end of Wednesday: Less than 2 mm across the far northeast and agricultural areas, increasing to 2 to 5 mm in the southeast and the Mount Lofty Ranges. 2 to 10 mm elsewhere, increasing to 10 to 15 mm in the North West Pastoral district with isolated falls reaching up to 30 mm.

The next routine forecast will be issued at 4:00 am CST Sunday.
