South Australia Forecast

Issued at 4:00 pm CST on Monday 13 July 2026
for the period until midnight CST Friday 17 July 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A ridge of high pressure lies over northern SA. A cold front will pass across southeastern SA today before a strong high pressure system moves east mid week and dominates the weather pattern until at least Friday.

Forecast for the rest of Monday 13 July

Showers about the agricultural area and Flinders Ranges, more likely about westward facing coasts and ranges and in the southeast. Northwest to southwesterly winds, fresh about southern coasts and the southeast. Light winds in the north.

Forecast for Tuesday 14 July

Isolated showers about the agricultural area, clearing by evening. Maximum temperatures near average. West to southwesterly winds, easing and tending southwest to southeasterly during the day.

Forecast for Wednesday 15 July

Dry. Maximum temperatures near average. Southeast to northeasterly winds.

Forecast for Thursday 16 July

Dry. Maximum temperatures near average grading to below average in the far north. Southeast to northeasterly winds.

Forecast for Friday 17 July

Dry. Maximum temperatures near average, tending above average in the west. North to northeasterly winds. Cumulative rainfall totals to the end of Friday: Generally up to 2 mm about the west coast, northern agricultural area and remaining parts of the Flinders Ranges and Eyre Peninsula, 2 to 5 mm across the southern agricultural area, with isolated falls of 5 to 15 mm about the Mount Lofty Ranges.

The next routine forecast will be issued at 4:00 am CST Tuesday.

* Calls to 1300 numbers cost around 27.5c incl. GST, higher from mobiles or public phones.
