

TOP PRIORITY FOR IMMEDIATE BROADCAST

Severe Weather Warning for DAMAGING WINDS

For people in Adelaide Metropolitan, Mount Lofty Ranges, West Coast, Lower Eyre Peninsula, Eastern Eyre Peninsula, Yorke Peninsula, Flinders, Mid North, Kangaroo Island, Upper South East, Lower South East and parts of Riverland, Murraylands, North West Pastoral and North East Pastoral districts.

Issued at 10:50 am Monday, 1 June 2026.

Damaging winds to affect South Australia today and into Tuesday morning.

Weather Situation: A strong cold front will sweep across the state today bringing isolated damaging wind gusts to much of the state. A deep low pressure system will follow this afternoon bringing a broader damaging wind risk over western

parts of the state, extending eastwards to the Adelaide region as well as central and southeastern parts during Monday evening as the low passes to the south of Adelaide overnight.

DAMAGING WINDS averaging 60 to 70 km/h with gusts to 100 km/h are likely about the West Coast, Eyre Peninsula and Yorke Peninsula today, extending to the remainder of the warning area, including Adelaide, during Monday evening.

DAMAGING WINDS are expected to ease over coastal and low lying areas, including Adelaide, from early Tuesday morning, and then gradually ease over the Flinders Ranges and Mt Lofty Ranges during Tuesday afternoon and evening.

A separate warning for ABNORMALLY HIGH TIDES is also current for parts of the coast. For more details, refer to <https://www.bom.gov.au/weather-and-climate/warnings-and-alerts>

Locations which may be affected include Adelaide, Port Lincoln, Strathalbyn, Maitland, Whyalla, Mount Gambier, Ceduna and Port Augusta.

94 km/h wind gust was recorded at Cleve at 7:07 am.

Sustained 68 km/h winds were recorded at Warburto Point (near Moonta) around 8:15 am.

The State Emergency Service advises that people should:

- * Move vehicles under cover or away from trees;
- * Secure or put away loose items around your property.
- * Stay indoors, away from windows, while conditions are severe.

The next Severe Weather Warning will be issued by 5:00 pm ACST Monday.
