Coastal Waters Forecast for South Australia Southern Zones

Issued at 9:30 am CST on Friday 4 September 2026
for the period until midnight CST Sunday 6 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure ridge over SA will move to the east during this morning, as a trough moves over the state during the day, followed by a strong cold front early Saturday. A high pressure system will then move across the state, behind the front, and merge with another high located to the southwest of WA on Sunday to extend a ridge across much of SA into next week. A low pressure system is also expected to move in vicinity of the WA border late Sunday and may extend a trough into far west SA into next week.

Central Coast

Forecast for Friday 4 September until midnight

Strong Wind Warning for Friday for Central Coast

Winds: North to northeasterly 10 to 15 knots turning northwesterly 15 to 25 knots in the late afternoon. Winds reaching up to 30 knots in the late evening.
