Local Waters Forecast for Adelaide Metropolitan Waters

Issued at 3:40 am CST on Friday 11 September 2026
for the period until midnight CST Monday 14 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred south of the Bight extends a ridge across the south of SA. The main high centre will gradually move eastwards to be centred to the east of SA later on Friday. A trough over the interior of WA will remain stationary but will weaken later Friday. Another low pressure trough will approach from the west on Saturday and move across SA on Sunday then a cold front will move across southern coasts later Monday. An upper disturbance will move over the far west on Monday.

Forecast for Friday 11 September until midnight

Winds: Variable below 10 knots. Seas: Below 0.5 metres. Swell: West to southwesterly below 0.5 metres. Weather: Sunny.

Forecast for Saturday 12 September
