Coastal Waters Forecast for South Australia Southern Zones

Issued at 3:40 am CST on Monday 10 August 2026
for the period until midnight CST Wednesday 12 August 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A low pressure system over northwest Victoria will continue to move eastward on Monday, while a high pressure system moves just to the north, ahead of a cold front forecast to move across South Australia on Tuesday. Another ridge of high pressure pushes into the west of the state on Wednesday, with the associated high moving over South Australia on Thursday.
