for the period until midnight CDT Tuesday 17 November 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A extends over the east and north of South Australia and is moving away to the east. A ridge of high pressure is expected to follow and persist into early next week. A cold front is expected to clip the southeast of the state on Sunday.

Forecast for the rest of Friday 13 November

Scattered showers in the southeast districts, easing into the late evening. Thunderstorms possible across most districts, becoming more likely in the north. West to southwesterly winds.

Forecast for Saturday 14 November

Isolated showers about southern agricultural area and western coasts. Isolated showers and thunderstorms about the north from the afternoon. Maximum temperature below average, grading to above average in the northeast. South to southwesterly winds, freshening during the afternoon.

Forecast for Sunday 15 November

Isolated showers about southern agricultural area and western coasts, most likely about windward coasts and ranges. Showers and thunderstorms developing about the northwest. Maximum temperatures below average statewide. Southwest to southeasterly winds, fresh about the coast.

Forecast for Monday 16 November

Light morning showers about windward coasts and ranges. Showers and thunderstorms about the northwest. Maximum temperatures below average statewide. South to southeasterly winds, tending easterly in the west of the state, fresh at times about the coast.

Forecast for Tuesday 17 November

Showers and thunderstorms about the west. Maximum temperatures below average statewide. South to southeasterly winds, tending east to northeasterly in the west of the state, fresh at times about the coast. Cumulative rainfall totals to the end of Tuesday: 2 to 5 mm inland increasing to 5 to 15 mm in the south and 10 to 20 mm west of about Ceduna, with isolated falls of 20 to 40 mm with thunderstorms in the west.

The next routine forecast will be issued at 4:00 am CDT Saturday.
