South Australia Forecast

Issued at 4:00 am CST on Wednesday 15 July 2026
for the period until midnight CST Saturday 18 July 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A strong high pressure system in the Bight extending a ridge over northern SA, will continue to move eastwards to be centred over eastern SA late Wednesday and over VIC by Friday.

Forecast for the rest of Wednesday 15 July

Dry, apart from possible isolated morning showers about the Lower South East. Areas of fog about the agricultural areas and south of the pastoral districts. Maximum temperatures near average. Southeast to northeasterly winds.

Forecast for Thursday 16 July

Dry. Areas of fog and frost about central and eastern parts of the agricultural areas and south of the pastoral districts. Maximum temperatures near average grading to below average in the far north. Southeast to northeasterly winds.

Forecast for Friday 17 July

Dry. Areas of fog and frost about central and eastern parts of the agricultural areas and south of the pastoral districts. Maximum temperatures near average, tending above average in the west. North to northeasterly winds, southeast to northeasterly in the northeast.

Forecast for Saturday 18 July

Dry. Areas of fog and frost on and east of the ranges. Maximum temperatures slightly above average. North to northeasterly winds, southeast to northeasterly in the northeast.
Cumulative rainfall totals to the end of Saturday: No significant rainfall forecast.

The next routine forecast will be issued at 4:00 pm CST Wednesday.
