Coastal Waters Forecast for South Australia Western Zones

Issued at 9:30 pm CDT on Saturday 31 October 2026
for the period until midnight CDT Tuesday 3 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system over central districts moves eastwards into Victoria overnight. A low pressure system is expected to enter from the west on Sunday, moving over central and eastern districts on Monday, followed by another ridge of high pressure which will persist until Tuesday. On Wednesday a cold front moves over the south of the state.

Far West Coast: WA-SA Border to Fowlers Bay

Forecast for Saturday 31 October until midnight
