Coastal Waters Forecast for South Australia

Issued at 9:30 am CST on Wednesday 27 May 2026
for the period until midnight CST Friday 29 May 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A low pressure system lies over the north of the state, weakening as it moves into NSW today. A weak ridge of high pressure begins to move across SA mid week. A cold front is expected to move over the west and southeast of SA on Friday. A high pressure system moves into the west on Saturday and then moves into the north on Sunday.
