Updated Coastal Waters Forecast for South Australia Gulf Waters

Issued at 10:38 am CST on Saturday 30 May 2026
for the period until midnight CST Monday 1 June 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A cold front moves across the south of the state this afternoon. A weak high pressure system moves across from the west on Sunday. A significant low pressure system moves over waters to the south of SA on Monday and Tuesday reaching western Bass Strait Tuesday afternoon. A high pressure system follows the low moving across northern parts of SA mid week.
