Coastal Waters Forecast for South Australia Gulf Waters

Issued at 9:30 pm CST on Thursday 28 May 2026
for the period until midnight CST Sunday 31 May 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A weak ridge of high pressure across SA on Thursday ahead of a series of cold fronts moving the coastal waters on Friday and Saturday. A weak high pressure system moves across the west on Sunday, followed by a significant low pressure system moving south of the Bight Monday and into western Bass Strait on Tuesday.
