South Australia Forecast

Issued at 4:00 pm CST on Sunday 21 June 2026
for the period until midnight CST Thursday 25 June 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred south of SA will move slowly eastwards during Sunday and Monday to be centred over NSW later Monday. A cold front will move across southern coastal districts late Tuesday or early Wednesday then a new high will move across waters to the south mid-week to be centred over Tasmania on Thursday.

Forecast for the rest of Sunday 21 June

Isolated light showers mostly about southern coastal districts. Light winds.

Forecast for Monday 22 June

Isolated light showers possible near southern coasts. A cold morning with areas of fog and frost. Maximum temperatures below average. Light winds tending west to northwesterly in the south.

Forecast for Tuesday 23 June

Isolated showers near southern coasts. Areas of morning fog about the Agricultural Area and frost about parts of the Flinders, Mid North and Murray districts. Maximum temperatures below average. West to northwesterly winds in the south. Southeast to northeasterly winds in the north.

Forecast for Wednesday 24 June

Isolated showers about southern coastal districts. Areas of morning fog and patchy frost about central and eastern districts. Maximum temperatures below average. East to southeasterly winds, tending northeasterly in the far west.

Forecast for Thursday 25 June

Isolated showers about parts of the southern coastal districts and over the Nullarbor Plain. Areas of morning fog about the eastern districts. Maximum temperatures below average. East to southeasterly winds, tending northeasterly in the far west.

Cumulative rainfall totals to the end of Thursday: less than 2 mm about the south of the pastoral, Flinders and West Coast districts, and for the Agricultural Areas. Isolated totals of 5-15 mm are possible near southern coasts.

The next routine forecast will be issued at 4:00 am CST Monday.
