Coastal Waters Forecast for South Australia Western Zones

Issued at 3:30 pm CDT on Sunday 1 November 2026
for the period until midnight CDT Wednesday 4 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A low pressure system over western parts of the state will move east over central and eastern districts on Monday. A ridge of high pressure will follow which will persist until Tuesday. On Wednesday a cold front moves over the south of the state, followed by another ridge of high pressure, with the centre of the high moving into the Bight on Thursday.
