Coastal Waters Forecast for South Australia Spencer Gulf

Issued at 3:40 am CST on Saturday 5 September 2026
for the period until midnight CST Monday 7 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A cold front and trough will track east today clearing South Australia as a ridge of high pressure develops in its wake. A trough is then expected to develop near the western border on Sunday and remain near stationary nearly next week.

Forecast for Saturday 5 September until midnight

Strong Wind Warning for Saturday for Spencer Gulf
