Australian Government Bureau of Meteorology
South Australia

South Australia Forecast

Issued at 4:00 am CST on Saturday 18 July 2026
for the period until midnight CST Tuesday 21 July 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A strong high pressure system over Victoria will continue to extend a ridge over South Australia. A weak trough develops in the west on Tuesday.

Forecast for the rest of Saturday 18 July

Dry. Areas of morning fog, mainly on and east of the ranges. Cold start with morning frost patches through the southeast. Maximum temperatures slightly above average. East to northeasterly winds.

Forecast for Sunday 19 July

Dry. The chance of morning fog on and east of the ranges. The chance of frost about parts of the northern agricultural area and south of the North East Pastoral district. Maximum temperatures slightly above average. North to northeasterly winds.

Forecast for Monday 20 July

Dry. Maximum temperatures slightly above average. Northeast to northwesterly winds.

Forecast for Tuesday 21 July

Dry, apart from a possible late light shower about western Kangaroo Island. Maximum temperatures slightly above average. North to northwesterly winds, shifting southwest to southerly about the southwest later. Cumulative rainfall totals to the end of Tuesday: Mostly dry.

The next routine forecast will be issued at 4:00 pm CST Saturday.
