South Australia Forecast

Issued at 4:00 pm CST on Sunday 5 July 2026
for the period until midnight CST Thursday 9 July 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred near Tasmania on Sunday and Monday will extend a ridge over SA. The ridge will weaken mid-week as a trough moves over the west and north of SA then a cold front will move across the south late Friday and early Saturday.

Forecast for the rest of Sunday 5 July

Dry. Southeast to northeasterly winds.

Forecast for Monday 6 July

Dry. Morning frost and fog about the agricultural area. Maximum temperatures below average. Southeast to northeasterly winds.

Forecast for Tuesday 7 July

Morning fog and patchy frost about the agricultural area. Chance of showers developing about central parts of the pastoral districts, extending into the West Coast district in the evening. Maximum temperatures below average. Southeast to northeasterly winds.

Forecast for Wednesday 8 July

Morning fog patches about the agricultural area and in the far west. Cold at first east of the ranges with areas of frost. Showers about central and western parts of the pastoral districts and the West Coast district. Maximum temperatures below average. Southeast to northeasterly winds.

Forecast for Thursday 9 July

Morning fog patches about the agricultural area and in the far west. Cold at first east of the ranges with patchy frost. Showers about the pastoral districts and the West Coast district. Chance of isolated showers over the agricultural area during the afternoon. Possible thunderstorms in the far northeast in the afternoon. Maximum temperatures below average. Southeast to northeasterly winds.

Cumulative rainfall totals to the end of Thursday: mostly less than 2 mm about the agricultural area. Totals of 2 to 10 mm about parts of the west and north and isolated falls of 10 to 20 mm are possible.

The next routine forecast will be issued at 4:00 am CST Monday.
