South Australia Forecast

Issued at 4:00 pm CST on Friday 19 June 2026
for the period until midnight CST Tuesday 23 June 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A low pressure system over Bass Strait will move eastwards and weaken overnight. An associated cold front will move slowly across the southeast of SA and will clear to the east during Saturday morning. A high pressure system will become established over the Bight during Saturday then will move only slowly eastwards during Sunday and Monday. A low pressure trough will move across southern coastal districts on Tuesday then another high will move across waters to the south.

Forecast for the rest of Friday 19 June

Showers about western districts and the Agricultural Area and isolated light showers possible about the Flinders and pastoral districts, contracting to the Southern Agricultural Area and easing in the evening. Possible thunderstorms near the Lower South East coast. West to southwesterly winds gradually extending throughout, fresh about the coasts.

Forecast for Saturday 20 June

Isolated showers about the Southern Agricultural Area, and a chance of isolated light showers about the south of the pastoral districts and in the west. Maximum temperatures below average. Southwest to southerly winds tending south to southeasterly later.

Forecast for Sunday 21 June

Isolated light showers mostly about southern coastal districts. Areas of morning fog inland and patchy frost about parts of the Agricultural Area. Maximum temperatures below average. Light winds.

Forecast for Monday 22 June

Isolated light showers possible near southern coasts. Areas of morning fog inland and patchy frost about parts of the Agricultural Area. Maximum temperatures below average. Light winds tending west to northwesterly in the south.

Forecast for Tuesday 23 June

Isolated showers about southern coastal districts, contracting to southern coasts in the evening. Areas of morning fog inland and patchy frost about parts of the Flinders, Mid North and Murray districts. Maximum temperatures below average. West to northwesterly winds in the south turning west west to southwesterly. Southeast to northeasterly winds in the north.

Cumulative rainfall totals to the end of Tuesday: less than 2 mm about the south of the pastoral districts, 1-5 mm for the Flinders and West Coast districts and the Northern Agricultural Area, 5-15 mm across the Southern Agricultural Area. Isolated totals of 15-25 mm are possible near southern coasts and ranges.

The next routine forecast will be issued at 4:00 am CST Saturday.
