Coastal Waters Forecast for South Australia Eastern Zones

Issued at 9:30 am CDT on Saturday 24 October 2026
for the period until midnight CDT Monday 26 October 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A trough of low pressure that lies near the NT/WA border will combine with a trough and cold front further south to move over much of SA on Saturday, and over the far northeast on Sunday. A ridge of high pressure will then move into the west from late Sunday and persist over the rest of the state throughout next week.

South Central Coast

Forecast for Saturday 24 October until midnight

Winds: Easterly 10 to 15 knots becoming variable about 10 knots in the middle of the day then becoming southerly 15 to 20 knots in the early afternoon.
