Coastal Waters Forecast for South Australia Eastern Zones

Issued at 9:30 pm CST on Wednesday 2 September 2026
for the period until midnight CST Saturday 5 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure ridge will remain over northern parts of SA, as a cold front slips across the southeast early Thursday. The ridge will move to the east early Friday as a trough moves over SA during the day, followed by another cold front early Saturday. Another high pressure system will move across the state, behind the front, and will extend a ridge across central and eastern parts of SA into Sunday. A low pressure system is then expected to develop about the WA border and may extend a trough into far west SA late on Sunday.

South Central Coast

Forecast for Wednesday 2 September until midnight

Strong Wind Warning for Wednesday for South Central Coast

Winds: Westerly 25 to 30 knots. Seas: 2 metres. Swell: Southwesterly 4 metres. Weather: Partly cloudy.
