Coastal Waters Forecast for South Australia Gulf St Vincent

Issued at 9:30 am CST on Tuesday 8 September 2026
for the period until midnight CST Thursday 10 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system, centred southwest of WA, extends a ridge across the south of SA. The main high centre will move across waters to the south throughout the week to be centred to the east of SA from late Thursday. A trough over the interior of WA will remain stationary for most of the week and may extend into the far west of the state at times.

Forecast for Tuesday 8 September until midnight

Winds: Variable about 10 knots becoming southerly 15 to 20 knots in the late afternoon. Seas: Around 1 metre. Swell: West to southwesterly below 0.5 metres. Weather: Becoming cloudy.

Forecast for Wednesday 9 September

Strong Wind Warning for Wednesday for Gulf St Vincent

Winds: Southerly 15 to 25 knots tending southeasterly in the early morning. Winds reaching up to 30 knots near the Yorke Peninsula coast early in the morning. Seas: 1 to 2 metres. Swell: Southeast to southwesterly below 0.5 metres. Weather: Cloudy.

Forecast for Thursday 10 September

Winds: East to southeasterly 15 to 20 knots decreasing to about 10 knots during the evening. Seas: 1 to 1.5 metres, decreasing below 1 metre during the morning. Swell: Southeast to southwesterly below 0.5 metres. Weather: Sunny.

The next routine forecast will be issued at 3:30 pm CST Tuesday.

* Calls to 1300 numbers cost around 27.5c incl. GST, higher from mobiles or public phones. Marine forecasts are also available on VHF and HF radio. View the radio schedule on www.bom.gov.au/marine
