Coastal Waters Forecast for South Australia Western Zones

Issued at 3:40 am CST on Sunday 28 June 2026
for the period until midnight CST Tuesday 30 June 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred over Tasmania extends a ridge over SA. The high and ridge will move eastwards today and a low pressure trough is expected to reach the far west of the state later today. The trough will slip southeastwards early next week, followed by a cold front mid week.
