Coastal Waters Forecast for South Australia Gulf Waters

Issued at 9:30 am CDT on Monday 9 November 2026
for the period until midnight CDT Wednesday 11 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A low pressure system and trough near the western border will move eastwards today, clearing to the east later on Tuesday. A ridge towards the east of the state will weaken and move southeast as this system moves though. Another high will develop south of the state on Wednesday. Another trough extends into the far west of SA later Thursday.
