South Australia Forecast

Issued at 4:00 pm CST on Tuesday 28 July 2026
for the period until midnight CST Saturday 1 August 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A cold front will clip the far southeast on Tuesday evening, before moving out to the east overnight. A high pressure system will then move over the Bight on Wednesday, and will extend a ridge across the state as it slowly moves east into NSW by Saturday. Another cold front is then forecast to cross the state from Saturday evening into Sunday.

Forecast for the rest of Tuesday 28 July

Showers continue about the southern coastal districts. Isolated gusty thunderstorms are possible about southern coastal fringe of the Lower South East in the evening. Small hail is also possible with showers in the far southeast. West to southwesterly winds. Winds fresh and gusty at times about the southeast, easing the evening.

Forecast for Wednesday 29 July

Possible morning fog patches in the southwest. Isolated showers about the Agricultural Area, particularly about windward facing coasts and ranges. Small hail is possible with early morning showers in the far southeast. Maximum temperatures below average. Southeast to southwesterly winds, tending easterly in the west.

Forecast for Thursday 30 July

Possible morning fog and frost on and east of the ranges. Chance of isolated light showers about the Southern Agricultural Area. Maximum temperatures below average. Variable winds across the southeast, tending northeast to southeasterly winds in the north.

Forecast for Friday 31 July

Possible morning fog and frost about the Agricultural Area on and east of the ranges, and possible frost about the North West Pastoral. Light morning showers about southern coasts and ranges are possible. Maximum temperatures average to below average. Northeast to southeasterly winds, tending variable in the southeast.

Forecast for Saturday 1 August

Possible morning frost about the Eyre Peninsula and northern inland parts. Mostly dry. Maximum temperatures below average. North to northeasterly winds.

Cumulative rainfall totals to the end of Saturday: Less than 2 mm about the Northern Agricultural Area and south of the Pastoral districts, with falls between 2 to 5 mm about the Southern Agricultural Area. Isolated falls of 5 to 10 mm possible about windward facing coasts and ranges and the southern coast of the Lower South East.

The next routine forecast will be issued at 4:00 am CST Wednesday.
