South Australia Forecast

Issued at 4:00 am CST on Monday 13 July 2026
for the period until midnight CST Thursday 16 July 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A ridge of high pressure lies over northern SA. A cold front will pass across southeastern SA today before a strong high pressure system moves east mid week and begins to dominate the weather pattern.

Forecast for the rest of Monday 13 July

Showers about the agricultural area and Flinders Ranges. Showers more likely about westward facing coasts and ranges and in the southeast. Maximum temperatures near to below average. Northwest to southwesterly winds, fresh about southern coasts and the southeast. Light winds in the north.

Forecast for Tuesday 14 July

Isolated showers about the agricultural area, becoming less likely during the day. Maximum temperatures near to below average. West to southwesterly winds, easing and tending southwest to southeasterly during the day.

Forecast for Wednesday 15 July

Dry. Maximum temperatures near to below average. Southeast to northeasterly winds.

Forecast for Thursday 16 July

Dry. Maximum temperatures near to below average. Southeast to northeasterly winds.
Cumulative rainfall totals to the end of Thursday: Generally 2 to 5 mm across the agricultural area, west coast and Flinders Ranges, increasing to 5 to 15 mm about the Mount Lofty Ranges.

The next routine forecast will be issued at 4:00 pm CST Monday.

* Calls to 1300 numbers cost around 27.5c incl. GST, higher from mobiles or public phones.
