

TOP PRIORITY FOR IMMEDIATE BROADCAST

Severe Weather Warning for DAMAGING WINDS

For people in Adelaide Metropolitan, Mount Lofty Ranges, West Coast, Lower Eyre Peninsula, Eastern Eyre Peninsula, Yorke Peninsula, Flinders, Mid North, Kangaroo Island, Upper South East, Lower South East and parts of Murraylands, North West Pastoral, North East Pastoral and Riverland districts.

Issued at 4:41 pm Sunday, 31 May 2026.

Damaging winds to affect South Australia from Monday morning.

Weather Situation: A strong cold front will sweep across the state during Monday bringing isolated damaging wind gusts to much of the state. A deep low pressure system will follow later on Monday bringing a broader damaging wind risk over

western parts of the state, extending eastwards to the Adelaide region, central, and southeastern parts during Monday evening as the low passes to the south of Adelaide overnight.

DAMAGING WINDS GUSTS to 90 km/h are possible across western and central parts of the state from late Monday morning, including Adelaide and the Mt Lofty Ranges.

DAMAGING WINDS averaging 60 to 70 km/h with gusts to 100 km/h become likely about the West Coast, Eyre Peninsula and Yorke Peninsula during Monday afternoon, extending to the remainder of the warning area, including Adelaide and the southeast, during Monday evening.

DAMAGING WINDS are expected to ease over coastal and low lying areas, including Adelaide, during Tuesday morning, and then gradually ease over the Flinders Ranges and Mt Lofty Ranges during Tuesday afternoon and evening.

Locations which may be affected include Adelaide, Port Lincoln, Strathalbyn, Maitland, Whyalla, Mount Gambier, Ceduna and Port Augusta.

The State Emergency Service advises that people should:

- * Move vehicles under cover or away from trees;
- * Secure or put away loose items around your property.
- * Stay indoors, away from windows, while conditions are severe.

The next Severe Weather Warning will be issued by 11:00 pm ACST Sunday.
