Coastal Waters Forecast for South Australia Western Zones

Issued at 3:30 pm CDT on Thursday 5 November 2026
for the period until midnight CDT Sunday 8 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system in the Bight extends a ridge over SA. The high moves through the Bight and over the eastern states, as a cold front clips the southeast on Friday. Another high pressure system moves over waters to the south of SA over the weekend, while a developing low pressure system and trough in WA move close to the SA border. The high drifts southeast of Australia as the low moves across SA on Monday.

Far West Coast: WA-SA Border to Fowlers Bay

Forecast for Thursday 5 November until midnight

Winds: Variable about 10 knots becoming south to southeasterly 10 to 15 knots in the late afternoon then tending east to southeasterly in the evening. Seas: Below 1 metre. Swell: Southwesterly 2 to 2.5 metres. Weather: Clear.
