Coastal Waters Forecast for South Australia Western Zones

Issued at 9:30 pm CDT on Sunday 8 November 2026
for the period until midnight CDT Wednesday 11 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred west of TAS will continue to drift eastwards, while a weak low pressure system and trough near the western border continue to move eastwards. The high will drift southeast of Tasmania by Monday, while the trough and low continue to move eastwards across SA, clearing to the east later Tuesday. Another high will develop south of the state on Wednesday. Another trough extends into the far west of SA later Thursday.

Far West Coast: WA-SA Border to Fowlers Bay
