South Australia Forecast

Issued at 4:00 pm CST on Tuesday 19 May 2026
for the period until midnight CST Saturday 23 May 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system over SA will remain dominant as it slowly moves east and into the Tasman Sea on Friday. A cold front will move across the Bight on Saturday.

Forecast for the rest of Tuesday 19 May

Isolated showers about the agricultural area, contracting to southern coasts in the evening. South to southwesterly winds, fresh about southern coasts.

Forecast for Wednesday 20 May

Morning fog patches about the agricultural area and in the west. Isolated showers about the agricultural area in the morning, becoming less likely during the afternoon. Maximum temperatures near to below average. Southwest to southeasterly winds tending easterly in the west.

Forecast for Thursday 21 May

Morning fog patches about the agricultural areas. Mostly dry. Maximum temperatures near to below average. Southeast to northeasterly winds.

Forecast for Friday 22 May

Morning fog patches about the east and southeast. Isolated showers developing about the west during the day. Maximum temperatures near to below average. East to northeasterly winds.

Forecast for Saturday 23 May

Isolated showers in the west, extending into central and eastern parts during the day. Maximum temperatures near to below average. Northeast to northwesterly winds, with a south to southeasterly change moving east during the day.

Cumulative rainfall totals to the end of Saturday: Dry across the North East Pastoral district. Elsewhere, less than 2 mm, with 2 to 5 mm about southern coasts and ranges and the far northwest.

The next routine forecast will be issued at 4:00 am CST Wednesday.
