Coastal Waters Forecast for South Australia Eastern Zones

Issued at 9:30 am CST on Friday 18 September 2026
for the period until midnight CST Sunday 20 September 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A strong high pressure system centred over Victoria will maintain a ridge across SA as it drifts slowly over NSW. A cold front will then approach from the west late Saturday and move across SA on Sunday, before another ridge pushes in behind the front. The associated high will then move eastwards across waters south from Monday.

South Central Coast

Forecast for Friday 18 September until midnight

Winds: Northwesterly 15 to 20 knots. Seas: 1 to 1.5 metres. Swell: Southwesterly 2 to 2.5 metres. Weather: Sunny.
