Coastal Waters Forecast for South Australia Western Zones

Issued at 5:02 am CDT on Sunday 8 November 2026
for the period until midnight CDT Tuesday 10 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred south of SA will continue to drift eastwards, while a weak low pressure system and trough in WA move east across the SA border. The high will drift southeast of Tasmania by Monday, while the trough and low drift eastwards across SA, clearing to the east late Tuesday. Another high will develop south of the state on Wednesday.
