Coastal Waters Forecast for South Australia Western Zones

Issued at 9:30 pm CST on Wednesday 27 May 2026
for the period until midnight CST Saturday 30 May 2026.

Please be aware

Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A weak low pressure system lies over the North East Pastoral district and is expected to weaken further as it moves into east into NSW this evening. A weak ridge of high pressure begins to move across SA on Thursday ahead of a cold front moving across the south on Friday. Another weak high pressure system moves across from the west over the weekend.
