Coastal Waters Forecast for South Australia
Investigator Strait

Issued at 3:40 am CDT on Sunday 15 November 2026
for the period until midnight CDT Tuesday 17 November 2026.

Please be aware
Wind and wave forecasts are averages. Wind gusts can be 40 per cent stronger than the forecast, and stronger still in squalls and thunderstorms. Maximum waves can be twice the forecast height.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A high pressure system centred southwest of WA extends a ridge over most of SA. A cold front is expected to clip the southeast of the state today. The high will move slowly eastwards during the week. A trough over inland WA will move over SA mid to late next week.

Forecast for Sunday 15 November until midnight

Winds: Southwesterly 15 to 20 knots turning southeasterly in the late evening. Seas: 1 to 1.5 metres. Swell: West to southwesterly around 1 metre. Weather: Partly cloudy.

Forecast for Monday 16 November

Winds: Southeasterly 15 to 20 knots. Seas: 1 to 1.5 metres, decreasing to 1 metre during the morning. Swell: West to southwesterly below 1 metre, increasing to 1 to 2 metres through the Backstairs Passage. Weather: Cloudy.

Forecast for Tuesday 17 November

Winds: Southeasterly 15 to 20 knots. Seas: Around 1 metre, increasing to 1 to 1.5 metres during the evening. Swell: Southerly 1 to 1.5 metres through the Backstairs Passage, decreasing to around 1 metre during the afternoon or evening. Weather: Partly cloudy.

The next routine forecast will be issued at 9:30 am CDT Sunday.

* Calls to 1300 numbers cost around 27.5c incl. GST, higher from mobiles or public phones. Marine forecasts are also available on VHF and HF radio. View the radio schedule on www.bom.gov.au/marine
