South Australia Forecast

Issued at 4:00 pm CST on Wednesday 27 May 2026
for the period until midnight CST Sunday 31 May 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A weak low pressure system lies over the North East Pastoral district and is expected to weaken further as it moves into east into NSW this evening. A weak ridge of high pressure begins to move across SA on Thursday ahead of a cold front moving across the south on Friday. Another weak high pressure system moves across from the west over the weekend.

Forecast for the rest of Wednesday 27 May

Isolated showers about the southeast, becoming less likely during the evening. Possible thunderstorms about the far northeast. Southwest to southeasterly winds.

Forecast for Thursday 28 May

Morning fog patches about the agricultural areas and western districts. Isolated light showers about southern coasts and ranges during the morning. Maximum temperatures near to below average. Variable winds

Forecast for Friday 29 May

Morning fog patches about the agricultural areas and southern pastoral districts. Isolated showers about western coasts and the southern agricultural area, becoming more frequent about the southeast during the day. Maximum temperatures near average. Variable winds becoming northwesterly ahead of a westerly change moving across western and central districts.

Forecast for Saturday 30 May

Showers about the agricultural areas, western coasts and south of the pastoral districts. Maximum temperatures near average. West to southwesterly winds extending throughout, fresh at times about the coasts.

Forecast for Sunday 31 May

Isolated showers about the southern agricultural area, with showers and possible thunderstorms developing about the west during the day. Maximum temperatures near to below average, tending slightly above average in the northwest. West to southwesterly winds, tending north to northeasterly across western districts.

Cumulative rainfall totals to the end of Saturday: Light falls across the southern pastoral districts.

Widespread 1 to 5 mm elsewhere, increasing to 5 to 15 mm across western coasts and parts of the Flinders and Mount Lofty Ranges.

The next routine forecast will be issued at 4:00 am CST Thursday.
