South Australia Forecast

Issued at 4:00 am CST on Monday 18 May 2026
for the period until midnight CST Thursday 21 May 2026.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation

A ridge of high pressure builds in the west. A cold front will move over the south early Tuesday, followed by a high pressure system, which will linger in the Bight midweek. The high will move into Bass Strait towards the end of the week.

Forecast for the rest of Monday 18 May

Areas of morning fog. Isolated showers about the far north. Isolated showers about the agricultural area becoming scattered during the afternoon and evening. Maximum temperatures near to below average. Southwest to southeasterly winds, tending west to northwesterly about the south during the day.

Forecast for Tuesday 19 May

Morning fog patches about the agricultural area. Isolated showers about the agricultural area, most likely about southern coasts and ranges. Maximum temperatures near to below average. South to southwesterly winds fresh about southern coasts.

Forecast for Wednesday 20 May

Morning fog patches about the agricultural area. Isolated showers about the agricultural area, contracting to southern coasts in the evening. Maximum temperatures near to below average. South to southwesterly winds fresh about southern coasts. Maximum temperatures near to below average. Southwest to southeasterly winds tending easterly in the west.

Forecast for Thursday 21 May

Morning fog patches about the agricultural area. Mostly dry, apart from light showers about southern coasts. Maximum temperatures near to below average. Southwest to southeasterly winds tending easterly in the west.

Cumulative rainfall totals to the end of Thursday: 1 to 5 mm about the south of the pastoral districts and agricultural area, 2 to 5 mm about southern coasts and ranges and the far north.

The next routine forecast will be issued at 4:00 pm CST Monday.
